

2011 COLUMBIA VALLEY CABERNET SAUVIGNON

Early insight into the fruit and structure of Cabernets that are young promise the taster that soon more will be coming. This wine does all that in spades. The mouth feel of bound fruit flavors leaning towards raspberry and black fruit strokes leaves a pleasant experience which promises greater things to come over the next few years.

Again, this is a good example of a 2011 vintage which is much different from the wines we have seen from WA in the last decade.
